## Villa Park landscapers honored for excellence

Tropical Plaza landscaping earned four awards from the Orange County Chapter of the California Landscape Contractors Association for quality, construction, originality and attention to detail demonstrated on projects completed in 2012.

The Villa Park company was cited for “green techniques” it applied to the Santiago College humanities building in Orange and the City of Corona border reservoir. Its work on the Santiago College athletics/aquatics building earned it an award for landscape renovation; and its transformation of the Norred residence in

Orange netted an award for small residential landscaping.

CLCA is a nonprofit trade association of licensed landscape and landscape-related specialty contractors. Award entries are judged by a panel of CLCA members from outside Orange County who spend four days closely inspecting each nomination for the quality of workmanship and materials utilized. Each landscaping entry must adhere to industry standards and have properly shown an execution of detail.

Tropical Plaza was one of 17 contractors honored by the association.
